

EXPERIMENT – 9

Title

Interview Skills and Preparation Techniques

Aim

To understand interview skills and practice them through a mock interview in a campus placement-like environment.

What are Interview Skills

Interview skills are the abilities required to communicate confidently, clearly, and professionally during an interview.

They help a candidate present knowledge, attitude, and suitability for a role effectively.

Importance of Interview Skills

Interview skills are important because they:

- Create a strong first impression
- Help express skills and knowledge clearly
- Improve confidence and body language
- Increase chances of selection in interviews

Types of Interviews

Common types of interviews include:

- Technical interviews
- HR interviews
- Personal interviews
- Online or virtual interviews

Key Interview Skills

Communication Skills

Clear and confident communication helps convey answers effectively.

Body Language

Good posture, eye contact, and gestures reflect confidence and professionalism.

Listening Skills

Active listening helps understand questions and respond accurately.

Confidence and Attitude

A calm and positive attitude improves overall interview performance.

Interview Preparation Steps

- Research about the organization
- Understand the job role
- Revise technical and academic concepts
- Practice common interview questions
- Dress professionally and be punctual

Activity: Interview Skills Practice Activity

Activity Title

Mock Interview Simulation for Campus Placements

Activity Description

In this activity, students participate in a **mock interview** that simulates a real **Indian campus placement interview**.

One student acts as the interviewer (faculty or senior student), and another student acts as the interviewee.

Questions include self-introduction, academic background, basic technical questions, and situational questions.

Interview Situation

The student appears for a mock interview for an entry-level role related to Artificial Intelligence and Machine Learning.

The interviewer evaluates communication skills, confidence, clarity of thought, and basic technical knowledge.

Application of Interview Skills

- Introduces self clearly and confidently
- Maintains proper posture and eye contact
- Listens carefully before answering questions
- Answers politely and honestly
- Responds calmly to follow-up questions

Examples of Effective Communication Skills

Team Meeting

Explaining a complex idea in simple steps so the entire team understands and stays aligned

Email to Manager

Writing a clear, polite update that covers key points without sounding too formal or too casual

Handling Conflict

Listening calmly during a disagreement, then responding with facts instead of reacting emotionally

Job Interview

Answering questions with clear structure, relevant examples, and steady tone while also asking thoughtful follow-up questions

Learning Outcome

This activity helps students improve confidence, communication skills, and interview readiness.

Result

The mock interview activity was successfully conducted, and interview skills were practiced in a realistic campus placement environment.
